Parts List:

Hex Bolt x4

Split Lock Washer x4

Flat Washer x 4

Nylon Lock Nut x2

Watch Our Assembly Video!

Chain Clip x2

Chain 6 Ft. x1

Frame x2

Step 1: Remove both panels **(G)** from the box. Line them up so that the mounting holes overlap, allowing clearance for hardware.

Step 2: Thread the first set of hex bolts **(A)** through the top mounting holes. Ensure each bolt has one split lock washer **(B)** and one flat washer **(C)** in the order shown before tightening the hex bolts.

Step 3: Insert hex bolts **(A)** through the side wall of the drag frame. Place one split lock washer **(B)** and one flat washer **(C)** on each bolt, then secure each bolt with a nylon lock nut **(D)**.

Step 4: Attach the chain clips (**E**) to the farthest ends of the drag frame. Ensure the chain clips are securely fastened by tightening them.

Safety Instructions

- **Wear Protective Gear:** Always wear gloves, safety glasses, and sturdy footwear when operating the Landzie Drag Level to protect yourself from potential injuries.
- **Clear the Area:** Ensure the area where you will be using the drag level is clear of obstacles, debris, and other people to prevent accidents.
- **Proper Handling:** Use proper lifting techniques when handling the drag level to avoid strain or injury. If the equipment is too heavy, seek assistance.
- **Secure Connections:** Make sure all bolts, washers, and nuts are securely fastened before operating the drag level to prevent parts from coming loose during use.

Usage Instructions

- **Assembly:** Follow the provided assembly instructions to correctly set up the drag level. Ensure all parts are properly aligned and securely fastened.
- **Attaching to Vehicle:** Attach the drag level to your vehicle using the provided chains and hitch. Ensure the connection is secure before starting.
- **Operating the Drag Level:** Drive at a slow and steady pace while using the drag level to ensure even leveling and to avoid damaging the equipment.

General Care Instructions

- **Cleaning:** After each use, clean the drag level by spraying off any dirt or debris with water. Ensure it is completely dry before storing to prevent rust.
- **Storage:** Store the drag level in a cool, dry location to protect it from the elements. Avoid leaving it outside for extended periods.
- **Regular Maintenance:** Periodically check all bolts, washers, and nuts to ensure they are tight and in good condition. Replace any worn or damaged parts as needed.
